

## **USAID Business Enabling Project in Serbia JOB DESCRIPTION AND STATEMENT OF WORK**

**Position: Consultant for Inspection Analytics, Promotion and Reporting**

**Employer:** Cardno Emerging Markets USA Ltd., Washington DC, Belgrade Representative Office

**Component 1:** Business Regulation and Economic Governance

**Location:** Serbia, Belgrade

### **I. SCOPE OF WORK**

#### **About the Project**

USAID Business Enabling Project (hereinafter: USAID BEP/the Project), implemented by Cardno Emerging Markets USA Ltd. and partners, is a seven year initiative launched in January 2011. The purpose of the Project is to help the Government of Serbia improve the competitiveness of the Serbian economy, its macroeconomic position and its private sector businesses. The Project provides technical assistance, training, and other support to improve the business enabling environment, macroeconomic stability, and further develop financial markets. The Project is demand driven: all activities are based on the priorities of the private sector and Government.

USAID BEP Component 1, Business Regulation and Economic Governance, streamlines laws, regulations, and institutions to improve regulators' capacity to implement laws and improve analysis and public-private dialogue. The Project's approach to achieving reforms is to help the Government work closely with the private sector and outside experts to make reforms that improve business competitiveness. The Project provides technical assistance to improve construction permitting, inspection oversight, and other legal, regulatory and institutional reforms.

#### **Background to SOW**

In order to meet requirements of creation of business-friendly framework in the area of inspection oversight, USAID BEP seeks for technical assistance of Consultant for Inspection Analytics, Promotion and Reporting.

USAID BEP has worked with the Ministry of Public Administration and Local Self-Government ("MoPALSG") and the Government of the Republic of Serbia (GoS) in developing a new inspection oversight framework that is harmonized with good international practices and modern inspection standards. The Law on Inspection Oversight was enacted on April 15, 2015, and published in the Official Gazette of the Republic of Serbia No. 36/2015. The Law entered into full force on April 30, 2016. The MoPALSG, with USAID BEP support, has prepared an Implementation Plan for this Law to address the likely challenges in implementing this piece of legislation. Implementation involves a large number of inspection bodies and inspections that have to implement new concepts and procedures. It includes a number of implementing

activities structured within five measures: 1. Development and adoption of by-laws and documents for implementation, and informing public on Law novelties; 2. Establishing coordination mechanism and building capacities of the Coordination Commission; 3. Establishment and maintenance of e-Inspections system; 4. Establishing a system of training, continuous improvement of knowledge and skills and professional promotion of inspectors; 5. Providing technical and communication infrastructure, equipment and working conditions for inspections. During 2015 and 2016 BEP helped implement the Law by drafting bylaws and other implementation documents, developing methodologies, analysis, instructions, recommendations and templates, giving legal interpretations (over 400 interpretations provided in 2016), providing inputs for development of inspection oversight check-lists (1,700 check-lists developed with the help of BEP experts; all state inspectorates developed their inspection oversight check-lists), continuously presenting features of the Law and related legislation and regulation, training inspectors (around 5,000 inspectors trained through direct and follow-on trainings), helping process of development the e-Inspector system, and helping the Inspection Oversight Coordination Commission and the MoPALSOG to coordinate inspections. BEP continuously supported the Inspection Oversight Coordination Commission - umbrella inspection coordination body consisted of the Inspection Oversight Board and the Commission's Inter-Ministerial Council.

In 2016, BEP in cooperation with the Partners for Democratic Changes Serbia and the MoPALSOG completed the primary and advanced Train the Trainers inspection program on implementation of the Law on Inspection Oversight and inspection soft skills, which resulted in training of 327 trainers from a number of inspectorates across the Serbia. These trainers conducted follow-on trainings for their colleagues from inspectorates, ensuring knowledge dissemination and sustainability. 50 trainers passed the advanced Train the Trainers inspection program on implementation of the Law on Inspection Oversight. BEP also participated in development and delivery of e-training on implementation of the Law on Inspection Oversight for 1,140 local inspectors, through cooperation with the Standing Conference of Towns and Municipalities (SKGO) and OSCE.

USAID BEP provided technical support to the MoPALSOG and its contractor in analysis and development of recommendations re: improvement of inspection organization, transparency, advisory and preventive role, risk analysis, inspection oversight planning and inspection effectiveness indicators. The Coordination Commission endorsed these recommendations as inspection guidelines in Q2 2017.

## **Objective**

The objective of this STTA is to assist in implementation, impact analysis and promotion of inspection oversight framework and good practice in Serbia.

Consultant for Inspection Analytics, Promotion and Reporting will closely cooperate with USAID BEP staff, consultants and subcontractors, as well as with other stakeholders. The Consultant for Inspection Analytics, Promotion and Reporting will be part of a USAID BEP Inspection Reform Task Management team.

## **Tasks**

The Consultant for Inspection Analytics, Promotion and Reporting will provide technical assistance and advisory support in implementation of the Law on Inspection Oversight, processing inspection-related analytics, assist in new inspection oversight framework impact assessment and in promotion of inspection reform achievements and paths. The Consultant for Inspection Analytics, Promotion and Reporting is expected to develop the inspection-related documents - reports, tables, overviews, assessments, analytics papers, opinions, comments and suggestions, other inputs, and providing advice and technical assistance in other forms.

The Consultant for Inspection Analytics, Promotion and Reporting will help building capacities of the Coordination Commission and its supporting office (unit) in the MoPALSG, in terms of analytics, promotion and reporting, by providing technical assistance and advisory support.

The Consultant will provide the other deliverables as agreed with USAID BEP authorized representative.

The Consultant will furnish drafts of deliverables to USAID BEP duly and timely. USAID BEP will provide its comments in written timely after receiving the draft deliverable through Milan Stefanović, Senior Expert in USAID BEP Business Regulation and Economic Governance Team, Inspection Reform Task Manager, or other USAID BEP Inspection Reform Task Management team staff member.

## **Level of Effort**

The maximum number of days under this LoE cannot exceed 12 (twelve) days. The Consultant will obtain approval by the USAID BEP authorized representative on the number of days billable for each activity under this SoW and on deadlines for completion of each activity before he/she engages in that activity.

## **Period of Performance**

Period of performance of this SoW is July 3 to October 10, 2017.

## **Deliverables**
